

## FUSE™ KITCHEN COLLECTION

*New Delta® collection spices up kitchen décor with three colourful finishes*

**Toronto, ON (January 2012)** –The new Fuse™ Kitchen Collection from Delta Faucet adds a contemporary flair to the Delta kitchen faucet product offering. Available in three unique colour combinations, the design was inspired by the emerging trend of colour in unexpected places. The collection features a split-finish pull-down faucet, which is offered in a combination of a *Brilliance®* Stainless finish with Cracked Pepper, Chili Pepper or Snowflake White.

“The Fuse collection offers homeowners a surprising dash of color with a soft contemporary style,” said Anita Griffin, marketing brand manager at Delta Faucet Canada. “Complete with a number of Delta smart solutions, the new collection is innovative in both design and functionality.”

### About the Fuse™ Kitchen Collection:

- MagnaTite® docking
  - MagnaTite docking intuitively engages the spray head to its docked position with a powerful magnet, helping to keep the faucet and kitchen looking neat and orderly.
- Free-Moving Hose Weight
  - A free-moving hose weight ensures smooth docking of the wand so that even when the hose is extended to its full reach, it will easily slide back into place.
- DIAMOND™ Seal Technology
  - DIAMOND Seal Technology combines a durable DIAMOND™ Valve with InnoFlex® PEX waterways. The valve requires no lubrication, eliminates wear on seals, and ensures “like new” operation for the life of the faucet, lasting up

to 10 times longer than the industry standard.<sup>1</sup> The InnoFlex waterways eliminate potential leak points and are less hassle to install.

- Water does not come in contact with metal surfaces once inside the faucet, meeting all current and upcoming federal and provincial legislation.
- Touch-Clean® Technology
  - Touch-Clean soft, rubber spray holes allow you to easily wipe away calcium and lime build-up from the spray face of the pull-down wand with the touch of a finger.
- Integrated valve and coordinating soap dispenser
  - An integrated valve allows for single-hole installations, making it an ideal choice for granite countertops.
  - A coordinating soap dispenser, available to order separately, offers you the flexibility to easily select the right look to fit your sink.
- Variety of colorful finishes available
  - The Fuse collection is offered in a *Brilliance* Stainless and Cracked Pepper black finish, *Brilliance* Stainless and Chili Pepper red finish and *Brilliance* Stainless and Snowflake White finish.
