

H₂Okinetic™ Showers

The feeling of more water, without using more water.

H₂Okinetic Showers provide a more soothing, relaxing, and truly unforgettable experience, all without using more water.

- The unique wave pattern and velocity of the water create the feeling of more pressure.
- Larger water droplets and a dense spray result in a warmer shower experience.
- H₂Okinetic Showers provide 3X the coverage of a standard shower.*
- It's all designed to work with a flow that feels indulgent even when it's water-efficient.

*Coverage measured in accordance with EPA WaterSense® Specification for Showerheads, March 4, 2010.
