

In2ition® Two-in-One Shower

The In2ition Shower delivers water where you need it most.

- H2Okinetic Showers provide the feeling of more water, without using more water.
- A detachable handshower can run separately from or simultaneously with the showerhead.
- A simple flip of the diverter lever switches the spray between the showerhead and handshower—or both.
- The Pause feature slows water flow to a trickle to conserve water while doing tasks such as lathering up or shaving your legs.

MagnaTite® Docking

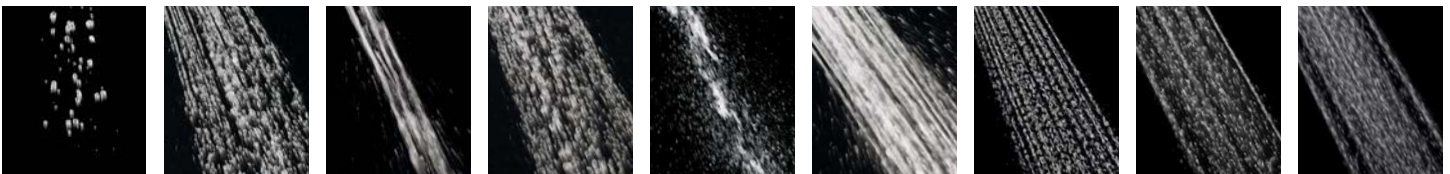

In2ition showers with MagnaTite docking utilize a powerful magnet to hold the handshower securely in place while not in use.
